GERMAN POWER TOOLS

THE ENGINEERS OF POWER

A perfect rotary hammer. The P'7911. The result of cooperation between Porsche Design and Metabo. Reduced to its main functions: Drilling, hammer drilling and chiselling. With a housing made of aluminium and carbon fibre and revolutionary ergonomics. The ideal combination of aesthetics and uncompromising quality.

PORSCHE DESIGN
MULTIHAMMER
P'7911

PORSCHE DESIGN MULTIHAMMER P'7911

Mesmerising looks, indefatigable power. The P'7911 harnesses Metabo's technology to create a versatile multihammer with five settings – hammer drilling, chiselling, drilling at low or high speed and screwdriving.

It effortlessly drills into concrete, stone, wood and steel, making short work of all jobs. Moreover, the P'7911 is equipped with Metabo's tried and tested technical features such as quick chuck change, progressively variable speed and a high-performance pneumatic impact mechanism. Befitting of such a quality instrument, it is manufactured at Metabo's German headquarters.

A simple chuck change and you can drive screws or drill at high or low speed. The metal keyless chuck is supplied as standard.

The unique top-mounted handle stabilises the centre of gravity, making it feel lighter than comparable power tools.

The powerful, compact motor is designed to meet the demands of heavy loads. The powerful hammer mechanism delivers up to 2 J per blow with up to 4,800 bpm.

You can't drill more safely than this: the Metabo S-automatic safety clutch prevents kickback if the bit jams.

Technical Data P'7911

1st gear/2nd gear

Diameter drilled in

– Concrete with hammer bits	20 mm
– Steel	10 mm/6 mm
– Softwood	20 mm/14 mm

No-load speed

0–1,000/0–2,800/min

Torque

15 Nm/6 Nm

Single-blow energy

2.0 Joule

Max. impact rate

4,600/min

Rated input power

705 W

Bit retainer

SDS Plus

Weight

3.2 kg [without mains lead]

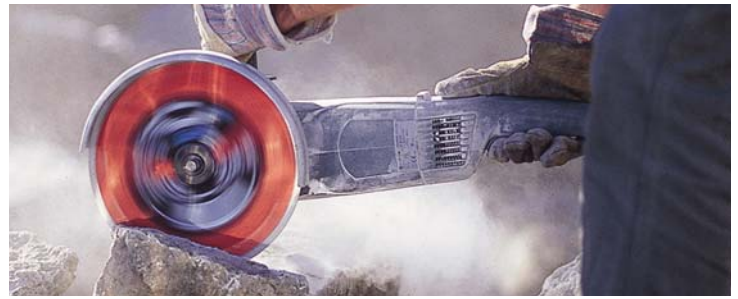

RRP

\$845

Standard Equipment : Case with patented opening mechanism, keyless chuck, 1x 6 mm & 1 x 8 mm SDS Plus bits, side handle

ANGLE GRINDERS

metabo®

1010 Watt 5" Grinder
W 10-125 Q
\$299

- >The German-made W 10-125 Q gives the perfect balance of weight and power for total control during the tough jobs
- >Metabo Marathon Motor that's built to withstand dust and grit

- >'Quick' spanner-less disc change
- >Automatic Safety Clutch, which prevents kickback if the disc jams
- >Anti-Vibration side handle
- >Deadman Switch version also available, POA

1400 Watt 5" Grinder
WEP 14-125 Q
\$389

- >Made in Germany, this 5" grinder combines maximum safety with ergonomic handling
- >The paddle switch is easy to grab, and once released, switches the machine off (Deadman switch)

- >Metabo's Marathon Motor and Safety Clutch, plus Soft Start
- >Overload Protection preserves the motor, by reducing speed and torque if it is placed under excessive load

2500 Watt 9" Grinder
W 25-230
\$319

- >Metabo's toughest grinder, with 18Nm torque
- >Made in Germany, so you know it has the stamina to go the distance
- >Metabo's Marathon Motor, that's designed to withstand the

- damaging effects of dust and heat
- >Rotatable rear handle and 3 position Anti-Vibration side handle
- >Tool-less blade guard adjustment for fast adaptation

IMPACT DRILLS, ROTARY HAMMER

metabo®

660 Watt Impact Drill
SBE 660
\$259

- >German-made impact drill
- >Marathon Motor, built to withstand heat and dust
- >Metabo's Safety Clutch prevents kickback injury if the bit jams
- >Drills concrete 16mm, steel 13mm,

- wood 30mm
- >No load speed 1st gear 0 - 1,000 rpm, 2nd gear 0 - 3,000 rpm
- >Max 57,000 impacts per min
- >13mm Red Ring metal keyless chuck

750 Watt Impact Drill
SBE 750 RR
\$329

- >Our most popular impact drill, it's just so versatile
- >Made in Germany, with a Marathon Motor that's designed to endure harsh conditions
- >Metabo's Safety Clutch prevents kickback injury if the bit jams

- >Drills concrete 20mm, steel 13mm, wood 40mm
- >No load speed 1st gear 0 - 1,000 rpm, 2nd gear 0 - 3,000 rpm
- >Max 57,000 impacts per min
- >13mm Red Ring metal keyless chuck

SDS Plus 3-Mode
Combination Hammer
KHE 32
\$699

- >3 Modes : 1. Concrete drilling, 2. Concrete chiselling, 3. Low speed drilling & screwing
- >VTC Electronic variable speed maintains rpm when the going gets tough, like cruise control in a car
- >Marathon Motor, Safety Clutch

- >The optional CODE! Remote immobiliser key can be used to secure it against site theft
- >Drills concrete 32mm, steel 16mm and wood 40mm (using opt. chuck)
- >No load speed 0 - 780 rpm
- >Max 3,800 impacts per min at 0 - 3.5 Joules

LITHIUM ION CORDLESS

metabo®

18 Volt Drill/Driver
BSZ 18 Impulse Li
\$499

14.4 Volt Drill/Driver
BSZ 14.4 Impulse Li
\$439

- >These tools are light and superbly balanced, plus they come with Metabo's most advanced battery system ever, Li-Power Lithium Ion
- >Lithium batteries are lighter, stronger and last longer than other battery types
- >Lithium batteries can sit on the shelf for years without going flat
- >The advanced electronics prevent the battery from self-destructing
- >Metabo's air-cooled chargers take the technology even further, by reducing charging time and

- decreasing risk of heat damage to the battery's cells
- >Metabo's Impulse function makes it easier to remove damaged screws and to start drilling on smooth surfaces
- >Supplied with 2 x 2.2Ah Li-Ion batteries, AC 30 Plus air-cooled charger and carry case
- >BSZ 14.4 impulse Li drills steel 12mm, wood 30mm
- >BSZ 18 Impulse Li drills steel 12mm, wood 35mm

18 Volt 4 piece kit
BSZ Kit
\$1149

- >Make the most of Metabo's Li-Power with this 4 piece kit
- >It contains :
Drill/driver *BSZ 18 Impulse Li*,
Sabre saw *ASE 18 Li*,
Circular Saw *KSAP 18 Li* and
Torch *MLA 18 Li*
- >BSZ 18 Impulse Li has Impulse function for easily removing damaged screws. Drills steel 12mm, wood 35mm
- >ASE 18 Li has Quick blade change, so you don't need allen keys

- >KSAP 18 Li with Ø 165 mm blade and ergonomic handle. 53mm cut depth at 90°, 42mm at 45°
- >MLA 18 Li has a 6 position head
- >Supplied with 2 x 2.2Ah Li-Ion batteries, AC 30 Plus air-cooled charger, carry case, 3 x sabre saw blades (metal, wood, wood/metal), circular saw blade and spare halogen globe for torch

18 Volt 2-Mode
Rotary Hammer
BHA 18 Li
\$899

- >Handy size without the weight (only 2.9kg), great for drilling overhead or in awkward places
- >Plus, it's powered by Metabo's most advanced battery system ever, Li-Power Lithium Ion
- >Lithium batteries are lighter, stronger and last longer than other battery types
- >Lithium batteries can sit on the shelf for years without going flat
- >The advanced electronics prevent the battery from self-destructing

- >Metabo's air-cooled chargers take the technology even further, by reducing charging time and decreasing risk of heat damage to the battery's cells
- >Has a Safety Clutch to prevent injury if the bit jams
- >Anti-Vibration side handle
- >2 x 2.2Ah Li-Ion Smart Pack batteries, AC 30 Plus charger and carry case
- >Drills concrete 20mm and with the optional adaptor, drills wood 22mm

18 Volt 4 piece kit
BHA 4 Kit
\$1499

- >Make the most of Metabo's Li-Power with this 4 piece kit
- >It contains :
Drill/driver *BSZ 18 Impulse Li*,
Sabre saw *ASE 18 Li*,
Rotary Hammer *BHA 18 Li* and
Torch *MLA 18 Li*
- >BSZ 18 Impulse Li has Impulse function for easily removing damaged screws. Drills steel 12mm, wood 35mm
- >ASE 18 Li has Quick blade change, so you don't need allen keys

- >BHA 18 Li weighs less than 3kg and can drill concrete, plus drill and screw at low speed
- >MLA 18 Li has a 6 position head
- >Supplied with 2 x 2.2Ah Li-Ion batteries, AC 30 Plus air-cooled charger, carry case, 3 x sabre saw blades (metal, wood, wood/metal), anti-vibration side handle for hammer and spare halogen globe for torch

NiCd CORDLESS

metabo®

4.8 Volt
2 Speed
Screwdriver

PowerMaxx
\$199

- >Trade tough little screwdriver, with all the extras thrown in
- >It's the perfect complement to an 18 Volt drill, with surprising power - 9Nm max torque
- >2 speed gearbox with reverse
- >20 torque settings
- >Comes with two interchangeable batteries, so there's no downtime
- >Bonus keyless chuck included
- >Bonus angle attachment also

included, for better access in tight places
>2 x 1.25Ah NiCd batteries, charger and carry case

Bonus
Angle Attachment
& Keyless Chuck

18 Volt Drill/Driver
BSZ 18 NiCd
\$359

- >The BSZ 18 is light and superbly balanced, with a unique "Z" shaped design that applies pressure directly onto the bit
- >Drills steel 12mm, wood 35mm
- >2 x 1.4Ah NiCd batteries, C45 charger & case

12 Volt Impact Driver
SSP 12
\$449

- >A lightweight and well-balanced 1/4" impact driver
- >Delivers 100Nm of torque without kickback to your wrist
- >No-load speed 0 - 2,500 rpm
- >Max impacts per minute 3000
- >Air-cooled charger reduces charging time and prevents heat damage to battery cells
- >2 x 2.0Ah NiCd batteries, AC 30 air-cooled charger & carry case

BENCHTOP MACHINES

metabo®

1600 Watt
10" Single Bevel
Mitre Saw
KGS 331
\$1099

- >Powerful 1600 Watt induction motor gives you maintenance-free performance when cutting timber and aluminium
- >The motor is super quiet, so it's great for interior fit-outs
- >Gives accurate compound cuts
- >Blade brake for added safety

- >Cut width 300mm, depth 54mm
- >Bevels 45° left and mitres 45° each way
- >Supplied with dust extraction port, side rails, clamp and Ø 250mm 80 TCT blade

2000 Watt
12" Double Bevel
Mitre Saw
KGS 305
\$1149

- >In addition to the 6 factory-set mitre angles, the patented mitre lock allows you to set any other angle you need. Then switch between your preset and any other angle, anytime.
- >Switch between trenching and cross cutting without losing your trenching depth
- >Set all adjustments from the front of the saw, no reaching over or walking back and forth

- >Gives a cutting width 320mm / depth 115mm
- >Bevel cut up to 47° on either side
- >Supplied with side rails, clamp and Ø 305mm 80 TCT blade
- >Use an optional 315mm blade and you'll get a 330mm cut width and 120mm cut depth

2000 Watt
250 mm
Table Saw
TS 250
\$969

- >Sturdily constructed with an open base, to prevent dust build up around the motor
- >Soft start to preserve the motor even further
- >To maximise stability during cuts, the rip fence locks on both ends
- >Adjust the full bevel range without any tools, from -1.5° to 46.5°

- >The extendable table gives you a huge 620mm RHS ripping capacity
- >Cutting height 52mm at 45°, 77mm at 90°
- >Supplied with mitre fence, rip fence and Ø 250mm 34 TCT blade

1800 Watt
Thickneser
DH 330
\$999

- >The 1,800 watt universal motor powers through boards up to 330mm wide.
- >Add in a passage height of 158mm, and you can work with large pieces without compromise.
- >The stock removal indicator lets you see the cut depth before you start, so there's no guesswork

- >Built-in dust extraction port saves clean up time and trouble. Simply attach to a Metabo dust extractor!
- >Supplied with push stick, dust extraction port and reversible HSS blades

SANDERS

metabo®

6" Dual Orbit
RO Sander
SXE 450 Duo
\$399

- >This unique sander has 2 orbit sizes, giving 2 sanding functions in the one sander!
- >The 6mm orbit gives greater stock removal when rough sanding, while the 3mm orbit produces a perfectly smooth finish
- >It's perfectly balanced and easy to control; the Power Control System stops skidding, preventing damage to the workpiece
- >Made in Germany

5" Random Orbital
Sander
SXE 325 Intec
\$199

- >250 Watt
- >Aluminium base flange ensures a long service life
- >Dust-sealed ball bearings
- >Variable speed wheel (5,000 - 11,000 rpm)
- >Power Control System means that when the pad first touches down on the workpiece, it will not cause scratches and scuff marks
- >Intec on-board dust filtering and collection

¼ Sheet
Palm Grip Sander
FSR 200 Intec
\$129

- >200 Watt
- >Non-slip rubber palm grip for comfort and control, dust-sealed switch for longer life
- >Dust-sealed bearings for smooth, even performance
- >In addition to the velcro baseplate, there is a secondary clamping device that allows for absolutely secure sanding sheets
- >Intec on-board dust filtering and collection

5" Random Orbital
Palm Grip Sander
FSX 200 Intec
\$129

- >240 Watt
- >Palm grip with non-slip rubber coating for comfort and control
- >Responsive switch, dust-sealed for longer life
- >Dust-sealed bearings for smooth, even performance
- >Random orbital action for maximum stock removal on both flat and curved surfaces
- >Velcro baseplate
- >Intec on-board dust filtering and collection

HEDGETRIMMERS

metabo®

500 Watt
450mm Hedgetrimmer
HS 8545
\$259

- >The ever-popular HS 8345 S hedgetrimmer has been upgraded to become the HS 8545
- >With a re-vamped 500 Watt motor and 450mm of usable blade length, it makes short work of trimming all branches up to Ø 20mm
- >2 trigger points mean that if one hand slips from either trigger, the blade stops within 0.05 sec
- >An additional rear trigger allows extra reach while still maintaining a safe, two-handed grip
- >Should the blade jam, the safety clutch prevents kickback injury
- >The blade tip protector preserves the blade and prevents it catching

500 Watt
550mm Hedgetrimmer
HS 8555
\$299

- >The HS 8555 is designed to maximise safety while making your trimming task effortless
- >Easily cuts branches up to Ø 20mm
- >2 trigger points mean that if one hand slips from either trigger, the blade stops within 0.05 sec
- >An additional rear trigger allows extra reach while still maintaining a safe, two-handed grip
- >The safety clutch prevents kickback injuries and protects the motor from burning out if the blade jams or catches
- >The blade tip protector preserves the blade and prevents it catching
