THE BONE™ CREEPERS & STOOLS

**1 YEAR
FACTORY
WARRANTY**

The Bone™ and Bonester™ feature a uniquely shaped body which cradles the user between the wheels only an inch or so above the ground. The big, easy rolling wheels are positioned outboard to provide a strong, stable working platform that can't tip or flip the user. The large diameter wheels with specially formulated tyres roll easily over all sorts of obstacles, including rough floors, drop cords and air lines, loose parts and even tools and floor grates.

The Easy Rider Wheels have soft tyres that grab and roll over frustrating shop clutter.

The Rough Rider Wheels are designed for use on grass, gravel and dirt or anywhere the going is tough

44mm Ground Clearance
Weight 7.5kg

The Tail Bone is a totally new approach to creeper seats, easier to use, more comfortable and rolls effortlessly over air hoses, drop cords, shop clutter and rough surfaces. The uniquely designed tripod base is a naturally stable working platform even on uneven floors and surfaces. The super comfortable bucket seat is shaped and sized for real-world people.

Quality

All components are tested to the highest standards providing a 5 year full product warranty.

Performance

Integrated digital power management guarantees peak LED performance and extended battery lifetime

Efficiency

Patented technology ensures all beam settings produce high power light output through the aluminium reflector and hyper-focus lens system.

Our patented Hyperfocus Lens/Reflector system provides the user with greater visible light output compared to other systems!

SWEEPERS

guarantee
12
months
commercial use

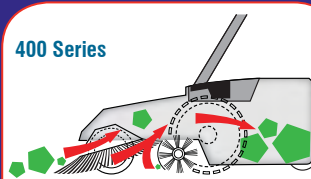

200 Series

One of a kind brush system

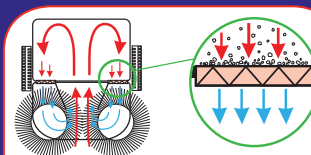

Unlike other sweeping brush devices haaga rely on there patented disk brush technology. These two specially made circular brushes cut under the waste material and whisk it directly into the waste container. The coarse or fine debris is not run over or pushed around in front of the sweeper.

400 Series

Twice the sweeping capability

These machines have an additional fine particle roller brush that is mounted behind the circular brushes. This allows the machines to sweep twice in one pass.

Very low dust thanks to intelligent air flow

These machines are also equipped with two special fine particle filters. The dusty air is cleaned by these filters and returned to the sweeping circuit.

HAAGA 400 Series (477 & 497) for most Heavy Duty Jobs

Ideal choice for workshops, warehouses, factories and parking areas

- > best performance, efficient sweeping with turbo sweeping system. Brushes driven by gears - no belts to perish or warp
- > Disc brushes protrude on both sides for greater cleaning performance.
- > Infinite Variable Height Adjustment
- > performance suits 2,900m²/h or 3,600m²/h
- > weight 13kg or 15kg
- > container Volume 50Litres
- > Haaga 497 has automatic height adjustment
- > 12 month commercial use warranty includes brushes.
- > Domestic Use - 4 year brush warranty, 2 year complete sweeper

SEE the HAAGA sweepers in action on you tube - just type "Haaga Australia" in the search bar
